- Good supplemental lighting for vine plant like cucumber and tomato

Description

Horti-Bar is an ideal inter lighting grow lights between plants. Having LEDS on both sides, it can light two rows of plant at the same time. With aluminum housing, it can get better heat dissipation without harming the green leaves.

Horti-Bar interlighting is not only suitable for cucumber, but also for tomato and peppers. Our flexible design allows greater control over the plant growth process. Also interlighting connection provides easy to install.

Applications

- Greenhouse
- High rise vegetables
- Cut flowers
- Potted plants
- Propagation / breeding
- Indoor farming
- City farming / urban farming
- Research
- Propagation
- Seed breeding
