Description

The 600w full spectrum LED grow light replaces 1000W-1200W dual-ended bulbs (both MH HPS). It can be used for both vegetative and flower growth. The Horti far LED grow light coverage area includes 25 sq ft in flower (5×5 ft) and over 64 sq ft in vegetation (8×8 ft).

The Horti far led grow light provides more square feet of coverage than any other LED grow lights in the market with proven results safety certified and IP65 rated. With waterproof housing, the Horti far LED grow light is fit for use in wet and humid conditions.
