Product description

- * Fashionable and personalized design, modern and unique appearance with Wide & Narrow beam angle.
- * Nowadays' most stable microwave detection technology employed saves as much energy as possible.
- * High luminous efficacy, low power consumption ,long life span.
- * Integral design and fully compact structure, waterproofing grade reaches IP65.
- * Smaller in size, longer lifetime, safer in practical use
- * A complete range of product line includes 0-10v dimming, non-dimming, emergency lighting, motion sensor detection control, and other flexible combination

Technical lighting data

Luminous flux: Max 9600lm
 Lamp wattage: 42W / 46W /50W / 54W / 62W / 66W / 72W
 Luminaire Efficacy: 160 lm/W
 Colour rendering index: Ra>80
 CCT: 3000K / 4000K / 5000K

Technical Electrical data

Power supply: 200-240VAC / 50/60 Hz
 Protection class : IP20
 Housing: Aluminium
