CE RoHS

Horti-Tube

1. Having LED on both sides, it can light two rows of plant.
2. IP65, daisy chained, take male and female plug.
3. Customized spectrum
- 4: Good supplemental lighting for vertical farming

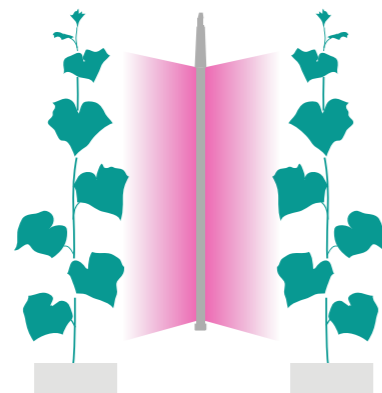

Description

Horti-Tube is an ideal inter lighting grow lights between plants. Having LEDS on both side, it can light two rows of plant at the same time. With aluminum housing, it can get better heat dissipation without harmine the green leaves. Horti-Bar interlighting is not only suitable for cucumber, but also for tomato and peppers. Our flexible design allows greater control over the plant growth process. Also interlighting connection provides easy to install.
